

## Student Organizations

### Educators Rising

Educators Rising cultivates highly skilled educators by guiding young people on a path to becoming accomplished teachers, beginning in high school and extending through college and into the profession.

### HOSA

HOSA provides a unique program of leadership development, motivation, and recognition for students enrolled in health science education.

### NTHS

National Technical Honor Society is the recognition of outstanding students who excel in career and technical education and academics. Student members must maintain a 3.0 GPA, have good attendance, and be nominated by their CTE teacher.

### SkillsUSA

SkillsUSA serves students who are preparing for careers in trade, technical, and skilled service occupations. SkillsUSA is a partnership of students, teachers, and industry working together to ensure America has a skilled workforce.

## Building Partnerships

We seek to improve our programs by collaborating with local business and industry to provide the most beneficial education and training experience for our students.

### You can join us by:

Classroom speaking engagements

Classroom demonstrations

Field trip opportunities to industry sites

Internship programs

Hiring students

Donating Supplies and equipment

## Itawamba Career & Technical Center

Serving all Itawamba County Schools

200 Vo-Tech Rd.  
Fulton, MS 38843  
Tel: (662) 862-3137  
Fax: (662) 862-3138  
[www.itawambactc.com](http://www.itawambactc.com)

## Program Areas

### Automotive Service Technician

Students will learn orientation and safety; tools, technical references, measurement and fasteners; basic automotive service; brakes; and basic electric service.

### Career Pathway Experience

Students will learn career options, communication skills, leadership, and problem solving while contributing to community economic development.

### Collision Repair

Students will learn introduction and safety, basic tool usage and safety, body and frame construction components, principles of welding, basic sheet metal repair, and refinishing.

### Construction

Students will learn fundamentals of safety, tools, math, basic carpentry, electrical, masonry, and plumbing skills.

### Digital Media

Students will learn photography, graphic design, print production, audio and video production and editing, and motion graphics.

### Health Science

Students will learn basic health care skills, legal and ethical health issues, medical terminology, body systems, and health care career possibilities.

### Law & Public Safety

Students will learn the history of law and legal systems, corrections, Emergency Services, and professional pathways associated with the U.S. Military.

### Teacher Academy

Students will learn the importance of being committed to their students and learning, the necessity to know the subjects they teach and how to teach those subjects, the managing and monitoring of student learning, how to think systematically about their practice and learn from experience, and how to become members of learning communities.

### Welding

Students will learn basic metal working processes, safety, math, blueprints, hand and power tools, bench work, power saws and drilling machines, basic oxyfuel welding and cutting, basic machine shop, and basic sheet metal.
